

DRILLING DEVICE

Function and characteristics

- The drilling device is used to make three holes of 8 mm diameter, offset 120 degrees, in the curved steel inner tube or piping.
- Part-specific insertion can handle, fix in place and drill three different interior tubes or pipes alternately.

DRILLING DEVICE

Technical data

Dimensions (W x D x H)	approximately 1,800 mm x 1,000 mm x 2,300 mm
Total weight	approximately 1,600 kg
Pneumatic connections	max. 6 bar

Our goods and services = Your benefit

- Design and planning
- Drawing drafting on AutoCAD
- Plant production
- Control engineering equipment
- Commissioning to handover production
- Training of technical staff and familiarisation of control staff,
- Complete documentation
- CE certification
